MEMORANDUM FOR: (See Distribution)

SUBJECT : Meeting, U-2/U-2R Configuration Control  
Procedures & Practices Review

1. A meeting is scheduled for 18 August 1966 in the OSA Control Center. Tentative starting time is 0930 hours. A working agenda is being prepared in the following outline:

a. Configuration Control Techniques. (Review of present procedures affecting mods, ECP's and Service Bulletins among Lockheed, Headquarters and Project Depot. Includes review of a recommended system for standard FOG/Project application).

b. Procedural Agreements. (Identify areas where agreements on standardizing FOG/Project procedures can be effected.)

c. Existing Aircraft Differences. (Show existing differences between FOG and Project U-2 aircraft in packages/equipment and reasons for differences.)

d. Proposed Equipment and Packages. (Review of Project planning for U-2R packages/equipment in forthcoming 2 - 3 year span.)

e. Assets Compatibility, U-2 vs. U-2R. (Review compatibility in engine, electrical systems and communications systems.)

f. Configuration Control Group(s). (Explore establishing a central group to consider configuration changes to new aircraft prior to production. Possible sub-group to consider cockpit configuration changes.)
